

## ACCESSORY EQUIPMENT

6735

(No.146 July 2014)

In order to maintain operational safety and training standardization, accessory items for new equipment will be centrally purchased and installed at the Davis Mobile Equipment Facility. This includes emergency warning devices, safety equipment, consoles; often including file storage boxes, and other devices or accessories needed for particular types of equipment.

Communications and law enforcement equipment e.g. Mobile Data Computers, (MDC), two-way radios, Global Positioning System receivers, (GPS), weapon mounting and storage equipment, etc. are accessories typically installed at the administrative unit. These accessories must also be installed to maintain operational safety and training standardization. For specific guidance please reference Fix-N-Fax 2 and 2a.

The Unit Fleet Manager shall have oversight and approve all installations and mountings. The Unit Fleet Manager may request advice, assistance and resource information from the Region Fleet Manager.

Any deviation from this policy will be considered a **vehicle modification** and must have prior written approval as directed in the Mobile Equipment Management Procedures Handbook Section 6820.
